An all-girls team from IIT Delhi and ISB Mohali wins the Season 1 of 'The Power of Shunya : Challenge for Zero';

Wins Cash Prize of Rs 10 Lakhs and a paid-trip to DuPont headquarters in the USA

An all-girls team of Maumita Bhattacharjee from Indian Institute of Technology, Delhi, and Sannidhi Jhala from Indian School of Business, Mohali, emerged as the winners of the Season 1 of 'The Power of Shunya : Challenge for Zero'. In a competition spanning 10 weeks, this team beat 23 other teams of students from India's premier science & technology institutes and B-schools to win the grand prize of a cash award or INR 1,000,000 (Rupees Ten Lakhs only) and a paid experience to the global DuPont headquarters and the Experimental Station at Wilmington, Delaware, USA. The 10-week on-air competition was hosted by popular television anchor Gaurav Kapur and was adjudged by an eminent panel of jury including Dr. Homi Bhedwar - Technology Director, South Asia & Asean, DuPont; Vani Kola - MD, Kalaari, Harish Hande - MD, Selco India and Rajeev Karwal - Founder & CEO, Milagrow. Dr. Kiran Karnik, member of the Scientific Advisory Council and the National Innovation Council, was a special juror during the grand finale round telecast.
